

TRAVEL WITH PURPOSE

At Safaris With A Heart, we believe travel can be more than just a vacation, it can be a life-changing experience that impacts both the traveler and the communities they visit. When you travel with us you explore Tanzania's breathtaking landscapes while uplifting its people – a special blend of adventure, culture, and outreach.

From climbing Mount Kilimanjaro to exploring the Serengeti, the Zanzibar archipelago or the remote Chimpanzee jungles, our tours offer high-adventure while funding charity projects. Whether you're participating in wildlife safaris, cultural immersions, or hands-on charity work, you'll leave Tanzania with a sense of purpose. Your journey helps build a brighter future for Tanzanian children and families.

Safaris With A Heart Meaningful Impact.

Bringing love, light, hope and joy to those most in need.

WHO WE ARE:

Our name Safaris With A Heart says it all - it defines our method and our mission. We believe in the power of travel(Safaris) to create positive change through our Tanzanian non-profit (Heart).

We fund housing, healthcare, sports wellness, employment, and education projects that uplift vulnerable populations, including women, children, and the elderly.

We are committed to ethical stewardship, full disclosure, and long-term solutions that engage people and communities in becoming self-sufficient.

OUR MISSION

Our blend of high-adventure travel and charitable giving allows us to share with Adventure Seekers worldwide the remarkable beauty of Tanzania and its people, create impactful lifelong memories and leave the country better because they were there. Safaris With A Heart in turn generously funds life-transforming, life-sustaining and life-enriching Tanzanian charity initiatives focusing on the most vulnerable, the desperately poor, the disabled, the abandoned, and those born with birth defects.

OUR IMPACT

- **Housing Solutions:** Safe, clean, and accessible homes for Maasai families with disabled children.
- **Healthcare:** Cleft palate/lip surgeries, bedsheets for local hospitals, malaria prevention, clean water, and reading glasses for village elders and indigenous tribes.
- **Sports Wellness:** Sport courts, basketball/soccer ball gear distribution.
- **Employment Resources:** Vocational training and business micro loans. Providing Mount Kilimanjaro porters and guides with mountain boots and cold weather gear.
- **Education Initiatives:** 8 pre and primary school classrooms, higher education scholarships for Tanzanian women, and school supplies.

CHARITY PROJECTS OVERVIEW

At Safaris With A Heart, our charity work transforms lives. Following are a few highlights.

Within the foothills of Arusha's Mount Meru, we construct clean, safe, accessible homes for Maasai families with disabled children. Within developing nations, charity work within disabled communities can often be overlooked. Safaris With A Heart works with a School for Handicapped Children to identify families most in need to provide housing solutions that uplift the child, their family, and their community. This is often combined with educational and personal hygiene support.

Together with our surgical team, within the remote community of Bukoba on the shores of Lake Victoria, we perform cleft palate/lip surgeries. To date, we have helped nearly 50 children reintegrate into their communities. Surgery gives these children the chance to access education and restore their family's dignity.

Also, within Bukoba, we support the Ntoma Infant Orphanage with medical insurance for 50+ infants. In the delicate balance of life, this insurance helps to ensure the infants receive necessary medical care.

With our Mount Kilimanjaro Porter Assistance Program, we partner with our travelers and with an American non-profit to collect and distribute mountain boots and cold weather gear for mountain porters and guides. This provides these hard-working men with the clothing necessary to perform their work more comfortably.

Our Sports Wellness Program focuses on constructing safe spaces for vulnerable groups, such as for girls and children with special needs. Sports courts and gear promotes health, teamwork, self-discipline and inspires youth to incorporate these learned skills into their life-long ambitions.
